We at RJ Staso Heating and Air Conditioning are happy to be able to extend this offer to you for an Incredible Energy Saver Plan. Our 20 point checklist helps to keep your maintenance warranty in place.

- **Clean Burner Assembly** to improve combustion, reducing waste heat
- **Tune Burners** for more efficient burns, saving energy
- **Clean Ignition Assembly** to ensure reliable operation on demand
- **Clean & Inspect Furnace Heat Exchanger** to ensure safe operation and the absence of cracks from metal fatigue
- **Verify Flue Draft** to ensure dangerous gas by-products are properly venting to the outdoors and flue pipes are free from obstruction
- **Inspect Flue Pipe** to ensure no corrosion is present which can lead to cracks and the introduction of dangerous fumes into your home
- **Test Refrigerant Charge** to ensure optimum levels leading to lower utility usage and extend compressor life
- **Test Capacitors** to ensure reliable operation and continued compressor and motor protection
- **Test Crankcase Heaters** to ensure proper compressor protection
- **Inspect & Test Controls & Safeties** to keep operating costs low and prevent failures. (Heat Pumps Only)
- **Adjust Blower Fan Blower** to prevent wasted energy and excess sound levels from nuisance cycling
- **Adjust Balancing Dampers** to improve comfort. (Zoned Systems)
- **Clean or Replace Filters** to reduce energy use, reduce compressor strain, improve indoor air quality, and improve comfort
- **Check Air Flow** to ensure proper air flow across the coil for proper humidity removal and reliable operation
- **Visually Inspect Ductwork** to identify obvious leaks, which reduce system efficiency and increase utility expense
- **Tighten Electrical Connections** to ensure uninterrupted system operation
- **Measure & Record Voltage & Amperage** to identify baseline operating conditions
- **Clean Inside Evaporator Coil** to restore heat transfer efficiency, reduce utility cost, and improve air quality
- **Clean Outside Condensing Coil** to restore heat transfer efficiency and reduce utility cost
- **Clean Condensate Drains** to prevent water damage and the potential for mold formation
