20 point checklist (annual check-ups keeps your maintenance warranty in place)

- **Clean Burner Assembly** to improve combustion, reducing waste heat
- **Tune Burners** for more efficient burns, saving energy
- **Clean Ignition Assembly** to ensure reliable operation on demand
- **Clean & Inspect Furnace Heat Exchanger** to ensure safe operation and the absence of cracks from metal fatigue
- **Verify Flue Draft** to ensure dangerous gas by-products are properly venting to the outdoors and flue pipes are free from obstruction
- **Inspect Flue Pipe** to ensure no corrosion is present which can lead to cracks and the introduction of dangerous fumes into your home
- **Test Refrigerant Charge** to ensure optimum levels leading to lower utility usage and extend compressor life
- **Test Capacitors** to ensure reliable operation and continued compressor and motor protection
- **Test Crankcase Heaters** to ensure proper compressor protection
- **Inspect & Test Controls & Safeties** to keep operating costs low and prevent failures. (Heat Pumps Only)
- **Adjust Blower Fan Blower** to prevent wasted energy and excess sound levels from nuisance cycling
- **Adjust Balancing Dampers** to improve comfort. (Zoned Systems)
- **Clean or Replace Filters** to reduce energy use, reduce compressor strain, improve indoor air quality, and improve comfort
- **Check Air Flow** to ensure proper air flow across the coil for proper humidity removal and reliable operation
- **Visually Inspect Ductwork** to identify obvious leaks, which reduce system efficiency and increase utility expense
- **Tighten Electrical Connections** to ensure uninterrupted system operation
- **Measure & Record Voltage & Amperage** to identify baseline operating conditions
- **Clean Inside Evaporator Coil** to restore heat transfer efficiency, reduce utility cost, and improve air quality
- **Clean Outside Condensing Coil** to restore heat transfer efficiency and reduce utility cost
- **Clean Condensate Drains** to prevent water damage and the potential for mold formation
